V1

I just want to clap my hands, I just want to move my feet,
Nothing gonna hold me back, From shouting out the Victory!

V2

I've been so confused, Had troubles through and through.
But He's done a work in my life, and Maybe you need one too... Please,

V3

Forgive me while I praise Him, With words from my own heart.
I may not do it well, But this is where I start...

Chorus 1

Just want to thank, you, Lord...Praising Jesus name into the morning light.
Just want to thank you Lord... He's worthy is the reason, and you know it's right.

V3

Sometimes you need a minute, Not really asking for a thing.
And as the Holy Spirit guides you, Let the Praise of Jesus ring.

V4

Sorry, If I offend you, But Jesus IS the only way.
Well, I'm only really sorry, If you rejected Him today...so I say...

Chorus 2

Just want to thank you Lord...Overwhelming blessing, that have made me whole
Just want to thank you Lord.. Tell 'em that I love Him cause He saved my soul

Just want to thank you Lord... Leave it all to God and follow where he leads.
Just want to thank you Lord... Focus on my blessings, and not my needs.

Closing...

BKG (Just want to - Love Ya)

Just want to thank you, Just want to praise you,
Just want to love you, Just want to be like you.

Just want to thank you Lord... I'm giving God the Praises, that he deserves.

Just want to thank you, Just want to praise you, Just want to love you,
Thank you Lord,
